Your Certified Pediatric Nurse Exam

Preparing and Using Your Code Benefit to Apply
Your No Pass, No Pay Benefit for CPN Certification

Why Get Certified
Certification can help you stand out where you work and when seeking promotions. Holding certification can increase confidence in clinical abilities and provide personal satisfaction.

The No Pass, No Pay Benefit
If you are unsuccessful on PNCB’s CPN exam, there is no charge for the exam fee. You use your employer’s special charge code to apply.

Exam Eligibility
You will need 1800 hours of pediatric clinical practice within the past 24 months as an RN or a minimum of 5 years as an RN in pediatric nursing and 3,000 hours in pediatric nursing within the last 5 years with a minimum of 1000 hours within the past 24 months. You also need a current, active, unrestricted RN license.

4 Test Attempts Max
Testers may use an employer’s code benefit a maximum of four times over the life of their career.

2 Test Attempts Per Year
Unsuccessful testers can take the exam a second time during each of our 12-month agreement periods.

Counting Your Code Use & No-Show Rule
Follow through on your commitment to test after applying and receiving your eligibility email. Cancelling a test appointment without rescheduling or not scheduling to test counts as one use of the code. If you do not show up for your scheduled appointment ("no-show"), then you cannot use the code benefit again in the future.

Now You Can Test at Home!
You now have a choice about where and how to test! Choose between live remote proctoring at home or other secure quiet place without interruptions or in-person at a testing center. Compare choices.

Pandemic Protocols
If testing in-person, COVID-19 notices and policies from Prometric Testing Centers are posted at: https://www.prometric.com/covid-19-update/test-center-policies

Certification can help you stand out where you work and when seeking promotions. Holding certification can increase confidence in clinical abilities and provide personal satisfaction.
Preparing for Your Exam

**Download the Content Outline**
The content outline/test blueprint is your #1 tool to start your study. It describes all subject areas covered by the exam and questions per category. Walk through each line item to assess strong and weak areas.

**Use the Readiness Checklist**
Use PNCB’s checklist to maximize support and success for your CPN exam. Details about how to use the content outline and create a study plan are included.

**Check the Reference List**
CPN experts who write exam questions develop them from the textbooks on the reference list. PNCB recommends you use 1 pediatric nursing textbook that you are familiar with to review for the exam. This text should also focus on the subject areas covered by the CPN exam content outline. PNCB does not endorse a specific text.

**See PNCB’s Sample Questions**
Quiz yourself with PNCB sample questions. You will be able to see the correct answers and a reference citation. PNCB also offers 3 affordable practice tests for more questions.

**Explore PNCB Practice Tests**
Use PNCB practice tests to enhance critical thinking skills. Two modules include detailed rationales for what makes an answer right or wrong. One module is a drill of 100 questions with answers. Use practice tests early and often, well before your exam date. Look for the blue CPN practice test images.

**Manage Test Anxiety**
PNCB’s Test-taking Strategies resource is a free PowerPoint developed to help you learn exam preparation tips, strategies for answering multiple-choice exam questions, and techniques to manage test anxiety.

**Ask What’s Available Here**
Ask your clinical education / staff development teams, supervisors, and colleagues who have tested what resources are available where you work. Some employers offer unit libraries, hospital libraries, mentoring, review courses, and other support to help you get ready.

**Understand Exam Ethics**
Do you know what you can and can't say about exam content? Use PNCB’s exam ethics toolkit to learn what specific behaviors and practices are prohibited. Don't risk consequences for yourself or other nurses.
Application Tips & Testing Timelines

90-Day Testing Window
How soon are you ready to test after applying? After you submit your online exam application, PNCB emails your 90-day window within 2-3 weeks of application approval.

Entering Your Code
When you fill out the online application, please paste or type the exact 16-digit code in the application. Any extra spaces pasted at the beginning or end will mistakenly count as a digit.

Be Sure to Checkout
Even though there is no fee for your application when using your code, please remember to click the "Submit Payment" button on the checkout screen so the transaction will complete. This tells PNCB your application is ready for processing.

Watch Your Inbox
Within 2-3 weeks after submitting your application, PNCB emails approval and instructions on how to schedule your exam.

Read Your Candidate Handbook
The candidate handbook outlines important policies. It explains name changes, required IDs, late arrival, cancelling, rescheduling, what is not allowed at the test center/remote exam, and more.

Schedule Your Exam
Set your exam appointment within 2 weeks of being notified. Testing seats fill quickly. Schedule your exam appointment within 2 weeks even if you want to test later in your 90-day window.

Check Your 2 IDs
You must present two forms of identification, one with a current photo. Both forms of ID must be current, and both must include your current legal name and signature.

Receive Your Official Results Email
Your official results arrive by email 2-3 weeks after testing. If you pass, you will receive a wall certificate in 6-8 weeks by mail. You can order a CPN lapel pin here after your email arrives.
